

HUMANA CASE STUDY

How Humana Transformed Prior Authorization to Improve Patient Care Quality and Cost

Humana, a leading health and well-being company, sought to implement a frictionless prior authorization process to streamline collaboration with providers, reduce unnecessary medical expense and improve the overall healthcare experience for its members.

In less than a year, there has been a significant impact in:

PATIENT CARE

35%

Reduction in medically unnecessary surgeries (arthroscopy)

Faster patient schedulina

Shift of inpatient to outpatient setting (arthroplasty and spine)

PROVIDER COLLABORATION AND UTILIZATION

Provider digital adoption rate

Cohere solution's medical cost savings over previous program with fewer denials

Patients receive care four days sooner

Humana has expanded the partnership with Cohere to

5.5 million

of its members and more than
